Tri-Valley Little League Strikes Home Run

On Tuesday the Board of Supervisors approved a contract with Tri-Valley Little League Inc. for \$81,000 for construction of stadium lighting improvements to the Tri-Valley Little League park baseball field in Yucca Valley. "I think it is great that we are able to improve a field where the local youth gathers to play one of America's favorite pastimes- baseball," said Third District Supervisor Dennis Hansberger.

Improvements, which amount to \$81,000, will include the installation of thirty-eight 1500W MZ stadium lights to be attached to six wood poles and the installation of a three phase electrical system to be installed around the perimeter of the Tri-Valley Little League Baseball field. Tri-Valley Inc. owns and utilizes the baseball field for the purpose of providing youth baseball programs to underprivileged families in the community.
